Cengage Advantage Books: Bioethics In A Cultural Context: Philosophy, Religion, History, Politics

Synopsis

BIOETHICS IN A CULTURAL CONTEXT--PHILOSOPHY, RELIGION, HISTORY, POLITICS presents a unique, philosophical approach to modern bioethics. Rather than simply setting up debates about contemporary issues, this book recognizes that many of today's bioethical controversies are tied to profound underlying questions fundamental as: "When does life begin and end?" "What is a human being or person?" "What is life's purpose?" "What is the ideal society?" The book is comprehensive and accessible, featuring a wide range of content that is crisply presented and clearly explained. A multitude of interesting examples and cases provides ample opportunity for discussion, debate, and research.

Customer Reviews

"BCW is a well researched, balanced text on bioethics that targets nearly all of the key issues and provides a firm foundation for our students."- Kem Barfield, Three Rivers Community College
"I think this book is one of the best and fairest and most insightful texts on bioethics on the market."- Paul Boling, Bryan College

Vincent Barry is Professor of Philosophy Emeritus at Bakersfield College, having taught there for thirty-four years as well as being a highly successful philosophy textbook author.

Good condition and useful for class

This book has several different perspectives and appears to take a mostly neutral approach. I would certainly recommend this text for an Ethics/Bioethics class. However, I wish there could be more illustrations because it was rather unattractive having only words.

Sent the wrong book, then told me after my class started sorry we don't actually have this book.

Works on the "PC reader" but not the win8 app, works on android tablets but not android phones, works on ipads but not iphones. This is DRM at its finest. The book is great. What you get for the digital copy is garbage. Just buy a physical copy.

This book came in on time and it gave me confidence to pass my exams when class started

Book came as expected. Will be used for my college class.

Good

Came in great condition!
