Customer Reviews

This book visually is very appealing. Lots of beautiful photos put together in a lovely presentation. I was disappointed however, in the content that clearly focused on the Hollywood idea of Hawaiian hula and all the commercial aspects of the art. Not a serious study of hula, as I expected it to be.

As the other reviewers have said, the layout and pictures are gorgeous. Not sure why the one commenter didn't feel there was a historical portion - it's a visual book so it's meant to be accessible to the layperson and I think it is. Gives enough details without being overwhelming or needing a strong background.

This book has many beautiful pictures of the Hawaiian culture. All aspects of Hula is covered in this book. I would recommend this book to anyone who is wanting to learn about the Hawaiian culture and about Hula. This was money well spent as I am a hula student and have learned more about the history and meaning of Hula.
