Customer Reviews

This is a healthy book on the topic of Air Fryer. This book is loaded with helpful information, tips and recipes that I need to know about Air Fryer. Lauren Stevens is a great author on this topic. All recipes are very healthy, delicious and well guided. Overall, it was a great and enjoyable read about Air Fryer.

Air Fryer saves a lot of time, but without right recipes, your ration will be dull and unhealthy. So, I bought several Air Fryer cookbooks to solve this issue, and this one is one of my favorite recipe books. The dishes are ridiculously simple but tasty and healthy. I love them. You will love them.

Do not waste your time or \$ on this book. First see that yummy looking chicken on the cover.. The one that is clearly deep fried in Lard or 4 cups of oil. There is no recipe in the book that has any crispy chicken with a breading or coating That is clearly deceptive advertising. Recipes are poorly written and formatting is a worse in the Kindle Cloud reader. Peri Peri chicken... calls for "peri peri marinade" what the heck is that. After a search I found one from a single 3rd party seller--not prime. Even the recipe for french fries--better one is in the book that came with my Air Fryer. Also--cupcakes in the air fryer---really. Why would anyone want to do that? That is not why we purchase an air fryer.
