Credit Scoring Secrets (Credit Repair): How To Raise Your Credit Score 100 Points In 100 Days

Synopsis

Former mortgage brokers James L. Paris and Robert G. Yetman, Jr. detail exactly how credit scores are calculated and how a consumer can quickly raise their score. Check out our YouTube video which gives an overview of what is in the book -<http://www.youtube.com/watch?v=XpUfAoads-Q>The book is based on years of working with individual clients with credit situations as difficult as recent bankruptcies, foreclosures, and even IRS tax liens. Includes letters that can be used to dispute inaccurate information from a credit bureau report. Step by step information on what you need to do if you are currently attempting to get approved for a credit card, auto loan, or mortgage. Includes sources of no qualifying credit accounts that can be used to rebuild credit. From the Editors of ChristianMoney.com

Customer Reviews

Excellent book by a very experienced author. This will give you great tips on how to monitor and even improve your credit score. Includes insider information about how credit reporting entities work

and how to work with them to your advantage. I highly recommend this ebook.

If you are unfamiliar with how credit is earned and scored, this book is an eye opener. I suggest anyone with a credit card read this. So much in the credit world didn't make sense to me; however, I am not surprised to find out it is somewhat nonsensical to the experts as well. Some good advice is given in the book about how to play the credit game by the current rules and not try to fight the system.

Very good information. I've read a number of resources about credit and improving your score. This is easy to follow and contains valuable information. I wish it had gone a little deeper detail into handling public records. Overall I feel much more knowledgeable about how to handle my credit. I even forwarded to a friend!

Very helpful information! I recommend anyone who is of age to obtain credit to read this book and even young people should have this knowledge! I chose this rating because it represents the wealth of knowledge and information provided in this book! It was very well written!

This kindle helped me a lot and i liked it. It helped me to raise my credit score. When i saw this kindle advertised it looked good and it was good. I was very satisfied with this kindle.

The book is short so easy to read but I got some great nuggets of gold regarding how to raise my score and have already taken some action..I have not had time to see how my scores will be impacted but I went to one of my banks and set up a CD that is a secured personal loan which reports each month for a year and everyone at the bank raved about it as a way to improve my score so I was happy to learn about some ways to grow my credit score.... Thank you James Paris!!!

Wonderful tips that I can easily put into effect immediately. The author also gives example letters to repair credit. Well written and easy to understand in a very professional manner.

Lots of good tips for good credit simple easy changes that I learned were possible. This is worth the purchase.
