Chess Evolution 3: Mastery (Yusupov's Chess School)

Synopsis

Artur Yusupov's complete course of chess training stretches to nine volumes, guiding the reader towards a higher chess understanding using carefully selected positions and advice. To make sure that this new knowledge sticks, it is then tested by a selection of puzzles. The course is structured in three series with three levels. The Fundamentals level is the easiest one, Beyond the Basics is more challenging, and Mastery is quite difficult, even for stronger players. The various topics – Tactics, Strategy, Positional Play, Endgames, Calculating Variations, and Openings – are spread evenly across the nine volumes, giving readers the chance to improve every area as they work through the books. This book is the third volume at the Mastery level.

Customer Reviews

"Every serious player and legitimate chess coach should have the entire series. It is a far better investment than any opening book."
—Michael McGuerty, ChessCafe

Artur Yusupov was ranked No. 3 in the world from 1986 to 1992, just behind the legendary Karpov and Kasparov. He has won everything there is to win in chess except for the World Championship. In recent years he has mainly worked as a chess trainer with players ranging from current World Champion Anand to local amateurs in Germany, where he resides.

As far as I know, this is the last book published in the Yusupov series. It is a pleasure now finally to have all nine in the series. For the amount of information in these books, they are definitely worth the money!
