Customer Reviews

Everything was as advertised. Good product, good price.

I have enjoyed the introduction and the instructions and illustrations from this book. It is very helpful for my beginning leather work.

So far so good. Just started to read the book so not too much into but have learned a couple of valuable tips and techniques already. Therefore, a worth while purchase. Came neatly packaged in a box, was not even aware that it was a box inside, the packaging was very well done.

So easy they walk you through it...

Great book for the beginner!

Great book, it takes a complete beginner and shows how to sew leather the old fashioned way. Profuse illustrations. If a person is interested in stitching holsters, or some other leather craft item, this is the book to get. Stohlman's books on cases are a good second purchase, as they show some additional techniques for tricky projects.

LOVE IT!!!

One of the few "how-to" books that actually informs. Taught me a-thing-or-two!
