Great

I like to use these cards for my younger students. I had not found alot of material on tap for children so this was a nice find.

Love these cards for my beginners! Only wish I could find more for my intermediate and advanced kids.

Nicely presented, very good for beginners! A fun addition to class to switch things up a bit.

Excellent tap class tool! Well done drawings and precise description!

One of the best tap tools out there!

I think these are decent cards and have some basic terminology that tappers should know. I use them as a teaching tool with my beginning students. They do not cover anything beyond the basics, though.
