Portrait Of America, Volume II

Synopsis

PORTRAIT OF AMERICA is an anthology of essays written by some of America's most eminent historians. The collection maintains a loose biographical focus. The essays in this secondary-source reader humanize American history by portraying it as a story of real people with whom students can easily identify. More than 25 percent of the essays in the Tenth Edition are new, many from books that have been nationally and internationally recognized for their insight, accuracy, and timeliness, ensuring that the readings continue to be provocative and trustworthy. Each selection is preceded by an introduction for context, and a helpful glossary identifies important individuals, events, and concepts. Study questions follow each selection, prompting students to make comparisons between the readings.

: Steven B. Oates is professor emeritus at the University of Massachusetts, Amherst. Over the course of his career he has written highly successful biographies of figures such as Abraham Lincoln, Clara Barton, Martin Luther King, Jr., and William Faulkner. Charles Errico, the new co-author of Portrait of America, is a professor of history at Northern Virginia Community College. He also conducts graduate classes at George Mason University.

Delivered in a timely fashion. Inside of book was perfect. The outside corners were really curled & had a more tattered look to it than I expected. I did some repair to improve the looks....

It is torn and has water damage

I bought this book as a requirement for class. Lots of good information. Not a boring read. Very interesting. Good study material.

The condition of this book was poor. I the price I paid should of been half. I'll see what happens when I try to return it.
