Terrarium Animals From A To Z (Compass Guides)

Synopsis

Terrarium owners will find profiles of reptiles, amphibians, and even scorpions, spiders and insects. Frogs, lizards, snakes, turtles—virtually all creatures suitable for the terrarium are shown in more than 200 striking color photos. Readers will also find information on setting up and maintaining a terrarium. Titles in the Compass Guides series are handsome and practical quick-reference sources for pet owners, pet fanciers, and aquarium and terrarium hobbyists. Books feature brief descriptive profiles of their subject animals, each profile consisting of a color photo, the animal's place of origin, its basic housing and feeding needs, and its physical traits and temperament. In addition to the profiles, each Compass Guide also contains general information on animal species and their families. 200-to-300 color photos and index.

Compass Books Available from Barrons: Dogs from A to Z Terrarium Animals from A to Z

Tropical Freshwater Aquarium Fish from A to Z

If you are building a Vivarium or want to care for a reptile but don't know which one... this is your book. It tells you the very basic stuff you need to know about the most common reptiles and amphibians in the pet trade, so you can investigate further. It's very useful and every animal has its picture. Good VIVARIUM ANIMAL reference book.

Item as described and arrived on time.

My 10 year old son wanted some sort of reptile or amphibian, but he wasn't sure which one to get. He spent over a month poring over this guide. At first, he tagged the intriguing animals with post-its. Then, he went back and used eliminated animals based on descriptions of their care requirements, temperament, and more. After much research, he decided on a bearded dragon. He then used this book to set up an appropriate habitat. Well worth the money!

While this guide does not go in depth with each reptile and each terrarium type, it does provide all the information that you need as you look into setting up and maintaining a terrarium and selecting reptiles. The reptile information is broken down with easy to understand symbols and includes reptile characteristics, diet, behavior, times of day they are most active, level of difficulty for the reptile's care, terrarium size, type, substrate, temperature, and other habitat items that are needed to care for that reptile. This guide is well beyond the simple quick reference guide I was looking for!
