Cleared For Takeoff: The Ultimate Book Of Flight

Synopsis

All of aviation's dangerous, exciting, and most courageous moments are featured within this stunning compendium on flight. Packed with stories of heroic and innovative pioneers, fascinating profiles of remarkable planes from Spitfires to space shuttles, and how-to instructions for making everything from origami helicopters to bottle rockets—all accompanied by sensational photographs, illustrations, and diagrams—Cleared for Takeoff promises to astonish, entertain, and fire the imaginations of everyone with their head in the clouds.

Grade Level: 3 - 7

Customer Reviews

Gr 4—This detailed history of flight will delight readers with everything a budding aviation enthusiast needs to dive into this fascinating topic, including poems, essays, fact cards, and even a few flight-based experiments. White discusses flying for pleasure and for the military. While the writing is directed at more sophisticated readers, the brief essays, such as "Dead Heat: The Zeppelin Race," would make for an appropriate read-aloud in classrooms. With lovely artwork, photos (with blueprints), an engrossing narrative, and compelling facts, this volume will undoubtedly find an audience in school libraries. One caveat: as the author provides few direct citations, those looking for research texts might consider other titles, such as DK's *Flight: The Complete History*.

VERDICT A great addition to middle school libraries seeking an engaging overview of the history of aviation. — Sarah Knutson, American Canyon Middle School, CA

"Captivating information and attractive photos and diagrams that will keep even casual browsers reading throughout the day."-Booklist
"This detailed history of flight will delight readers."-School Library Journal

I bought this book for my husband but, after reading some of the reviews, I was afraid that it would be too much of a child's book for him. However, he loves it as does my 26 year old son. They both found it very interesting.

Great book about all aspects of aircraft and flying.

Our 13 yr-old grandson loves it! He wants to be a commercial pilot.

Great aviation history book. I bought one copy for a friend, then bought one for myself.

My husband loved his really early Christmas present. Read it all!

My husband who is a train and plane nerd is really enjoying it.

Grandson loves the book.

Kid loves.
