## Customer Reviews

David James has worked in upholstery since leaving school. He teaches upholstery at the university

level and has recently been awarded an Honorary Fellowship by Buckinghamshire New University. His recent work as an upholstery consultant includes wall coverings and projects involving the restoration of historic upholstery. This will be David's eighth book on upholstery, all published by GMC.

It covers everything I need to know.

This book is a very detailed account of upholstery that covers everything from tools, techniques, and even period replicating designs to assist you in keeping the period details of furniture accurate. I would definitely recommend this book as a reference tool for the beginner to the professional!

Best book out there.

Helpful

Like the other book from the same author, this one is a great reference for traditional techniques. It provides a clear insight on how to do very high quality upholstery. It may not be the reference you need on practical and modern techniques required in today's workshops to compete. It is a great reference anyway.

However, I decided that it's for the craftsman, not me. But I enjoyed reading it. Learned a lot, on chairs I don't need to completely re-do. But some basic things, they glossed over.

great illustrations and technique directions.

The book is very helpful.
