Being a child of the 1950s I can remember watching the weekly television program known as "Route 66." So, with my reading this book I decided to watch two episodes of it on YouTube, and I came to realize that the show basically dealt with social problems and customs. The show dealt with two young travelers exploring the country in their Corvette looking for the right place to settle down while in search of themselves in the towns along Route 66. Route 66 has been called the "mother road," since it had been the most travelled road before the interstates going from the east in Chicago clear to

California. This collection of novellas centers around the journeys of ten women as they find their HEA relationships which can only be sealed with a kiss. The stories, set in different towns and over the course of several decades, give its readers a sense regarding the nuance in the changes of relationships during these years. Even though this book's readers might not have lived along this iconic roadway, they are taken back to their idyllic hometowns and the relationships they once had. The book's title is essentially a rip-off of a classic song by the Nat King Cole Trio, "Get Your Kicks on Route 66." Both the book and the song infer that you can find the pleasures you're seeking can be found along this roadway, which is what I found as I stepped into the shoes of the female protagonist in each of these stories; and which this book's readers might find themselves doing as they're reading. It is for this reason I've given this anthology and its authors 5 STARS.

It was interesting to see just where Route 66 went. It was also good to read of the different years each story was in.

A variety of stories set in many times. The only common thread was of course Route 66. I enjoyed most of the stories a lot.

I Love all the authors in this series. I think I have read all their books, and never have been disappointed.

Love the 1950 time period. Love the stories and especially love all the covers with the gals in their 50s dresses and pink Catlilacs! Really enjoy these authors.

A nice read about romance and love on Route 66 featuring different decades and cities and towns. Having lived at various times on Route 66, this was a trip down memory lane.

I've loved each of these books in this series. Set in a simpler time, 1950's. On a road, I still hear people talk about. Those with a parade of interesting characters makes each read memorable.

the stories would have been so much better if the authors didn't think they needed to stick a Lord or God in here or there to prove it was Christian fiction.
