## Customer Reviews

Packed with Board-focused hints, case studies and 250 Board-standard test MCQs, *Gastroenterology and Hepatology Board Review Toolkit* is the ideal toolkit for gastroenterology residents and fellows to consult throughout their training, particularly those preparing for Board exams and certification. *Gastroenterology and Hepatology Board Review Toolkit*, 2nd edition provides chapter-by-chapter, expert coverage on every disease and symptom likely to be encountered during GI residency and fellowship. Chapters are short and digestible, with a strong emphasis on the essential clinical knowledge required during GI training. Board hints/tips, management algorithms, case histories and Board-focused chapter summaries accompany every chapter to aid rapid assimilation of key knowledge. GI Board-focused throughout with a section specifically on how to ace the Boards – perfect for GI trainees. Each chapter packed with handy features such as Board Hints study boxes, key points, management algorithms, case histories and a chapter summary. Recreates the GI Board exam via the online Test Board MCQs – and allows earning of CME credits at the same time. Contains 50 outstanding

endoscopic/surgical videos from the experts to improve technical skills required for Board certification Both symptom and disease focused –œ with every symptom and disease of the GI tract covered in a specific chapter Includes the latest management guidelines from the key international societies such as the –œ ASG, ASGE, AASLD and EASL Full color throughout and contains 300 high-quality photos and artwork

The best resource out there for those GI board study. The book is written by an all star cast of docs who are exceptional clinical educators. The layout is very approachable and well thought out. This book came out a few months before my boards- I wish it had come out sooner! In my opinion, all GI fellows should buy this and use it as a succinct resource they can regularly reference, add to, tuck notes into etc. By the time boards come around, he or she would have the best board study tool imaginable- one that is tailor made, and full of notes accumulated over 3 years of fellowship. Better yet, most of which will likely have some a personal clinical experience, making it easier to recall xyz.

This is a great book for medicine residents and GI fellows.
