Customer Reviews

“There are few things more fun than coloring while high.”
Bustle.com “If it feels a little wrong to bust out your first grade coloring book while baked, worry not. Jared Hoffman’s The Stoner’s Coloring Book: Coloring for High-Minded Adults is the perfect combination of relaxing nostalgia and tripped out inspiration for the weed lover in your life.”
The Huffington Post “[W]hat sets The Stoner’s Coloring Book apart is illustrator Jared Hoffman’s savvy, skillful reliance on illustrations that hold special appeal for cerebral cortexes that just took sponge-baths in Tetrahydrocannabinol.”
Mashable “Whether or not you partake, you have to admit, the idea is not entirely half-baked. It does have an intense air of relaxation about it.”
Yahoo! News “This coloring book is not child’s play.”

•The Daily Beast "I totally get it. There is something about coloring that just really feels good for a grownup." •The Stoner Mom blog

Jared Hoffman has dabbled in everything from acting to painting to robotics, programming, and entrepreneurship. The Stoner's Coloring Book is his first project after graduating from Cornell University with a degree in Information Science. He designs for delight by tying together aesthetics, humor, social-critique, and function.

Bought this because I wanted something different than what you can find in normal stores (plus I love herb so this was perfect) I love the variety of pictures. Some simple and cool, some wicked detailed, some really weird, some that I can't even describe. Great variety. Also- the pages are super thick. Like I used my gel pens and markers that love to bleed and they didn't. I'm sure you could use sharpies on this and it would be okay. Anyway- I'm super happy with this purchase. Thanks for thinking of us stoners! :)

This book is so much fun. Although I am a child of the 60's but no longer indulge, I can't begin to tell you how much fun I'm having with this book. This is one of my "I'm not in a serious mood and I just want to have fun with coloring". I love to use neons on these pictures. The paper is good quality and even though the markers bleed through, the pictures are one sided so it doesn't really matter. Sit back, have a glass of wine or whatever, put on some 60's and 70's music (I prefer rock and roll) and get out your neons. If you go out of the line...it's cool! Rock it baby!

The title explains it all. When it is time for chillin' this book is great if you are a coloring hobbyist. Great paper, so suitable for colored pencil or gel pens. Nice variety of subject matter, very 60's style psychedelic drawings to mind blowing expand your mind type. Lots of fun and relaxing.

I got this gift for a friend. The pages are great with a wide variety of funky. Some are simple designs to get the juices flowing and others are real meticulous for the OCD stoner. You can't rip the pages out so you know but they are only one sided so you don't have to worry about bleeding through or you can cut the pages out if you wish.

Got this gift for a friend before a cross country road trip. She absolutely loved it and got to coloring right away! Great coffee table book to have guests color whenever they visit. Lots of various art

designs by different artists.

so amazing

Really awesome designs. I wish the spine would bend easier and the pages were perforated but other than that it was a great and fun coloring book.

Some of the pages were pretty cool but there were a few that were even too weird for me lol but overall I'm glad I bought it!
