Synopsis

If you’re one of the countless fans of ghost hunting TV shows itching to get off the couch and track some spirits on your own, this book provides everything you need to know to conduct a successful paranormal investigation. Professional ghost hunter Rich Newman shares proven scientific methods, tried-and-true low-tech approaches, and the latest technology used by the pros. You’ll learn what ghosts are, why hauntings occur, the different types of supernatural phenomena, and the importance of conducting responsible investigations. Find out how to form a team, interact with ghosts, gather and examine evidenceÃ¢â ¬â ¢and what not to do when seeking spirits. Along with helpful hints, insider tips, and seasoned insights gained from Newman’s decade of field work, Ghost Hunting for Beginners is peppered with true accounts of ghost stories from famous cases and the author’s own investigations.

Rich Newman (Tennessee) has been investigating the paranormal for over ten years and is the founder of the group Paranormal Inc. His articles have appeared in Haunted Times and Paranormal Underground. Learn more about his investigations at http://www.paranormalincorporated.com.

I got this book just to be on the safe side of understanding what my new found business/hobby entails....everything that I am doing is correctly confirmed by this book. If you entering the world of

paranormal research- get this book as a guide- it will save you a lot of unnecessary work and wasted time- unless you have time to waste. The book has lots of interesting tips and situational examples. A good read !

The author really goes in depth about ghost hunting and debunking the flash of TV show ghost hunters.

This is a great one. The author explains paranormal (only hauntings - no cryptids or aliens) phenomena; how to run an investigation; gear; different kinds of analysis; and, forming a group. He tells you what you should use for equipment and what's overkill. His writing style is very easy to follow. I reference this book quite a bit before my group goes on an investigation. It's great for newbies like us.

Bought as a gift for someone, they enjoyed reading, very informative!

Interesting book for those that are into supernatural

Now that you have seen every episode of every ghost hunting-related TV show, before you Rambo up in black swat uniforms with ghost grenades and such for your first ever investigation, take pause to read this fine book. Interlaced with humor, this is a great little book written in a personal experience, no-nonsense style that made it a pleasure to read. While cutting through HollywoodÃƒÂ¢Ã â ¬Ã â„¢s usual ratings vs facts platform and other dizzying misconceptions of this field, for the ghost hunting beginner, start by reading this book just to clear your head of the nonsense that's out there. In that process, Rambo up with practical, useful knowledge instead. Kudos, Rich.

Interesting

Great book it has taught me a lot. I have to admit a lot of this I knew already from watching shows and my own experiences, but there were some interesting things that I wouldn't have thought of in this book. It also helps you find the software you need for free as well which was great for me.
