Clean House: Exposing Our Government's Secrets And Lies

Synopsis

From the New York Times bestselling author of *The Corruption Chronicles* comes a devastating expose of the scandals of Obama's second term. Judicial Watch President Tom Fitton reveals what the largest watchdog agency in America has uncovered in its battles against Obama secrecy. *Clean House* takes us through incriminating documents from the attack in Benghazi, Hillary Clinton's secret emails, the IRS scandal, and the Obamacare swindle. As the president of Judicial Watch, America's largest non-partisan government watchdog, Tom Fitton has investigated the Clinton, Bush, and Obama administrations. Judicial Watch is the group that helped impeach Bill Clinton and took the Bush White House secrecy all the way up to the Supreme Court. Since the beginning of the Obama administration, this grassroots group has filed over 700 open records demands and dozens of lawsuits, including a successful fight over the secret Obama White House visitor logs. Americans are rightly worried they are losing their country. How did five Congressional committees miss the smoking gun on Benghazi? How did Hillary Clinton keep a secret email server quiet for years? Does the IRS audit you because of your politics? Did the first American target of Obama's drone program work for the US government? How did Congress commit fraud to get Obamacare taxpayer subsidies? In *Clean House*, Tom Fitton answers these questions and provides shocking evidence of the corruption endemic to the Obama White House.

Customer Reviews

With twenty years' experience in conservative public policy, Tom Fitton has helped lead Judicial Watch since 1998 and overseen its tremendous growth and success in recent years. Under Fitton's leadership, Judicial Watch was named one of Washington's top ten most effective government watchdog organizations by The Hill. He is a nationally recognized expert on government corruption, immigration enforcement, congressional and judicial ethics, and open government. Mr. Fitton has testified before Congress on several occasions. Mr. Fitton gained national attention as a political analyst, previously working for America's Voice and National Empowerment Television. He is a former employee of the International Policy Forum, the Leadership Institute, and Accuracy in Media. Mr. Fitton holds a BA in English from George Washington University.

The most-feared "knock on your door" used to be 60 Minutes. Not any more. Judicial Watch has become the "tip of the spear" in our nation when it comes to uncovering and fighting corruption. As this new book shows, they are fearless when it comes to using the Freedom of Information Act (FOIA) to demand openness, transparency, and honesty. We've all seen the headlines about Hillary Clinton's multiple scandals. Judicial Watch has done true yeoman's work in their relentless pursuit of the truth about the corruption throughout the Obama administration, our federal government and the Clinton machine. This book gives the details behind the headlines that every voter who wants to be informed MUST READ! Indeed, it is time to CLEAN HOUSE!

Thank You Judicial Watch. I sent a donation to Judicial Watch recently.. and plan to send them a recurring monthly donation. The Federal Government is so corrupt and opaque... that you have to sue the Government under the Freedom of Information Act to get documents that belong in the public domain. Without Judicial Watch none of the illegal antics of Hillary Clinton would have been discovered. The lies and deception by Obama and the Democratic Party over the past 8 years would never have surfaced. At this point the Federal Government is not accountable for any of its actions. The Obama administration has proven to be the least transparent in history. Obama and his minions will lie directly to your face and shrug it off. Hillary Clinton's administration will be far worse. Clinton has spent a lifetime perfecting the "art of the lie". She is the most dishonest and disliked woman to ever be involved in Politics. Clinton will likely be elected as President. The Media is complicit in campaigning for Hillary Clinton. Clinton raised \$146 million dollars for her campaign in August 2016. This broke all records. Let me remind you that Hillary Clinton said: " We need to get the money out of Politics." Really? Hillary Clinton has been bought by Wall Street and Big

Banks...she will pay them back with "favors" once she gets elected. You can no longer trust or depend on the Media. The Media is unabashedly Pro-Democrat and Pro-Progressive. Basically the Media tells the you only what the Federal Government wants you to know. The Media selectively filters and slants the "News." CNN, MSNBC, Washington Post and the NY Times are the worst offenders. These organizations no longer investigate...they exist to advance an agenda. Judicial Watch will have a lot of work to do in the next four years. Buy this book and consider doing as I did...help them out. Be aware that the Washington Post is owned by the CEO of Amzn...(interesting to think about if you purchase this book). Disclosure: I am unaffiliated with any Political Party. I am NOT a Republican. I have become a Never-Hillary based on the work of Judicial Watch. Outright Lies: "Shovel Ready Jobs", "You can keep your Doctor" You can keep your Healthcare Plan" Your Insurance cost will go down" "the economy has recovered" "the IRS never targeted anyone...we will do a thorough investigation". "The Benghazi slaughter was caused by a Video", "the Veteran's Administration is a priority and people will be held accountable" "the Obama administration has deported more illegal immigrants than any other" ..most recently: "the 400 million paid to Iran was not a ransom".. "I gave all my emails to the FBI" "I never sent any Classified Emails on my Private Server" "Colin Powell told me it was OK to do" "the Clinton Foundation is not a conflict of interest" I can go on and on.

This book is the crown jewel in the crown of books exposing government corruption. If you love America and the pursuit of "life, liberty and the pursuit of happiness", if you love the freedoms we enjoy here, then you will take the time to read this book. It is a MUST read. This book goes directly to the heart of the depth of deception being perpetrated against the American people. While we are busy working, raising our children and doing what we can to make a positive contribution to our society, the people we have elected and trusted to keep us safe and abide by and enforce the laws of this country are doing whatever they want. They are pretending to be the coolest cats ever in public, while in private they are promoting their personal agendas for more power, money and popularity. They have no intention of being open and transparent by telling the truth to the American people they work for. Judicial Watch is absolutely awesome. They work 24/7 doing whatever it takes to uncover the truth of what is really going on right under our noses. We owe a great debt of gratitude to this organization and the best way to show it is by purchasing and reading this book. I am buying a copy for my children to read (ages 45-50). My hope is that my children and grandchildren will carry the torch for truth, righteousness and judgment forward by holding our elected officials accountable for their actions. There is a sea of uninformed young people coming up in this country. I

believe their hearts are in the right place and their passion for justice needs to be informed with the full truth. This book provides hard evidence for the full truth. If we are going to proudly call ourselves Americans then we have to read this book defend our right to know the truth.

Mr Tiny Johnson, Please cite objectively why you don't like the book. Disprove Tom Fitton's and JW's findings as to how Hillary Clinton, Obama, and the Democrat party have gamed the system and duped Democrat voting lemmings like you. Until then, STFU!

We need more organizations like Judicial Watch who are non partisan and believe in our founding principles. Power always needs watching, and none more so than the current administration who is trying to fulfill their goal of fundamentally changing what our country represents at home and in the world.

Well written and demonstrated Obama Administration not what citizens had hoped for. Congress should read this book. Elected officials that go rogue and go corrupt need to be exposed. Thankful for Judicial Watch's perseverance. Lack of transparency breeds greed, corruption, dirty deals, hides incompetence, and destroys public trust. Exposure is the best way to clean out the rot in government.

Tom Fitton and Judicial Watch are nothing less than modern day journalist/legal/newsworthy heroes and this book documents just a small portion of Judicial Watch Worth! Super detailed and informative ... can't put it down book!
