This is a very comprehensive guide to the trails around Moab, UT. While I was using it for guidance to the best motorcycle trails and it is oriented to Jeeps and RZR's for the most part, it still worked very well. It just requires one to "read between the lines."

This author does a fantastic job on his guides with lots of colored pictures and details. I own 2 of them now and won't hesitate to buy another when camping and 4 wheeling in a new location. This one for Moab has been updated recently.

This book is a must read for someone who's ready to explore Moab and may or may not have experience with 4x4s. We've covered about 18 trails to date, from moderate to difficult, and we've felt really confident following this guide book on some of the more remote trails. Combined with GPS, it's a must have for those who aren't familiar with the area and all the opportunities to get out and explore!

I am in Moab as I write this. This book is perfect. I used it while driving four different trails, did the Shafer trail with a Jeep Wrangler, Hells Revenge, Fins and Things, and Hurrah Pass with a RZR 1000.

This was great on our last trip to moab. Very helpful in knowing where to go and what to expect.

Great book as was the last two additions. Just seems like a lot of the same information. A couple new trails, but still a great book. Seems a bit high for the price of it. It boast of having all these pictures, but most are so tiny they aren't very viewer friendly. All and all I love the book, just think it's priced a bit higher then it should be. A must for any off-roader going to Moab!

Hubby and I are heading out west to do some off reading and will be taking this with us. Love the spiral bind and laminated pages, will be more durable. Being new to these trails we really like the confidence the maps and mileage breakdown gives us to set off on our adventure.

Excellent guide. Definable helped when I took a trip to the moab area.
