## Customer Reviews

Nice book, just a little confusing

Love it!

Good price and quality.

I bought this for my child, but I ended up using it as well. I have always loved geography myself, but the one thing that is constant is change, so it's good to keep up with new borders and nations. It was a great learning tool and refresher.

Okay. Wish it emphasized the capitals of each country.

This book was deeply appreciated by my nephew in grade 7. He found it easy to understand, and like all of the illustrations. I highly recommend this book for home assistance.

As a stand-alone product, I found it hard to work with. With an Atlas, it's still not as easy as it could be.
