Customer Reviews

Very very helpful

Excellent book used and got a 173 on my lsat

I bought this book for my college senior daughter, but reviewed it first to make sure I wasn't wasting

her time, or worse, just creating more pre-test anxiety for her. As a long (long) time ago LSAT-taker, I found it not only useful and inspiring, but well-organized. The text is enlivened (and the stress mitigated) by a number of cartoons.

This book covered a lot of subject matter and was very useful. It had a lot of advice, much of which would be difficult to figure out on your own. The interviews in the back with LSAT experts were especially useful.

Great book as a side read for your LSAT prep. This will not prepare you for the LSAT like a work book but it provides encouragement and some of the tips are pretty helpful.

Nothing magical in this book. I purchased the audio version of this and would listen to it on the way to work. I don't feel like there are any ground breaking ideas that will help too many people. A lot of the information I found in this book I came across on different LSAT blogs.

I don't normally write reviews but I got this as an audio book version on Audible. I am taking my LSAT on 9/27 and needless to say I am really stressed out. I found this book as it was something that wouldn't hinder what I have been learning from an LSAT class and decided to give it a try. I will say that this book has been really inspirational. It has helped me to iron out some of my stress and see that getting to where I need to be is possible.
