This reference is by far the least expensive product that provides extensive commentary on NFPA 70E. I agree with the author's description of this pocket reference book as "a quick on-the-job reference covering the key requirements for electrical safety in an easy-to-read format". Even though this book is the same "pocket" size as a regular Ugly's Electrical Reference, it contains 177 pages of clear, concise text and illustrations. While I do not consider it a replacement for NFPA 70E,

I am confident it will enhance my instruction on the topic of electrical safety in the technical electrical courses I teach, especially with regard to the requirements of NFPA 70E.

Great handy little book. I have turned to it quite a few times. Keeps you well informed on general practices. Please realize though that this book does not replace the true NFPA 70e.

I can't believe the price of less than \$10.00 for this Ugly's. I am an electrical instructor and I am always looking for the cheapest and best for my electricians. The book is small enough to fit into any tool box or lunch box so it will be used when needed on the construction site. It explains what is required by the employer to provide in the way of training to the employee and what are the responsibilities of the employee. It is easy reading and very pertinent to the safety of any electrician working on energized or de-energized electrical circuits. It even has a bonus section on first aid.

Perfect reference to NFPA 70E. It may not be adopted in all jurisdictions but this synopsis of all of the rules will get you far in keeping electrical installations safer.

THE BOOK ITSELF IS WONDERFUL, BUT, THE ONE I GOT WAS BOUND WRONG SO THE WHOLE BOOK IS BACKWARDS, EVER TRY READING BACKWARDS. DOESN'T WORK SO GOOD,

Excellent transaction. Highly recommend! AAAAA+++++

this ugly yellow book is the best reference book made. i use it all the time. and i'm glade i purchased it. it possible will save mine or someone else's life. THANKS!!!

It is in vain to have an extra copy to keep the job running on time.
