Mindful Coloring Books is an independent coloring book publisher created to share the joy of coloring with everyone! Whether you color for fun, relaxation or to stimulate your creativity Mindful Coloring Books has something for you. Creating coloring books began as such a marvelous experience and quickly turned into a fun and creative adventure.

This black background coloring book is an ideal size to stick into a purse or tote to take with you. The pictures are a good quality, with different designs that appeal to many different levels of colorists, from beginner to advanced. The paper is a decent quality, but too thick, so if you use pens

or markers, place a blotter page behind it when coloring. The pictures are one-sided so that helps to keep from bleeding onto the next picture. The book is glue bound, non-perforated. I would recommend this book for anyone who likes to color mandalas and patterns. Beautiful!! I received this product for free for my honest opinion.

Love this coloring book! The black background makes the pages pop! And I LOVE the color test page! I've never seen that before in a coloring book and it's so helpful! I've colored in pen and colored pencil in this book and both look great!

Love the black pages! The black really makes the colors pop. I also like the smaller size, even though the designs are very intricate & the color test page. Would have given 5 stars except the page has a white border. I would have preferred a totally black page.

I absolutely love to color, it is my go to for stress relief as a nurse. This coloring book exceeded my expectations in both design and affordability. I haven't often seen the "black background design" with regard to coloring books but it is without a doubt the choice in mandala coloring. It REALLY makes the finished product pop. I will purchase again from this seller, I may even integrate this into my purchases for my patients who would benefit from the delightful distraction of coloring., I can't wait to see what they offer next.

I was very pleased to see how beautiful this book is!!! I put aside what I was coloring on so I could start in this gorgeous book. I especially love the size of the book...I haven't measured it, but it appears to be an 8 x 8 squared which works much better for carrying around. The pages do not have print on the backside, so that you can cut it out and frame it, hang it up, or give as a lovely gift. These are quite stunning...I can tell already from the little I did last night. Oh and the book stays wide open so that you can color in the the book without removing the page if you prefer. I actually bought two of Mindful Coloring Book and I love them both but I had to start on this one right away. I received a free copy of this book in exchange for this honest review.

I really like this book. It's printed on one side only and on good paper. It has a variety of mandalas from simple to intricate. The black backgrounds make the colors pop. I will be buying more from this artist. I received this book free in exchange for an honest review.

What a beautiful coloring book! It has been several years since I've colored and this book has me hooked once again. The quality is superb. The finished pieces look so pretty on the black background. I will definitely buy from this seller again.

Poor quality of paper. The mandalas are printed on both sides, so you lose one because the ink damages the illustration on the back. I have bought many books, this is the worst!
