"I own over 75 coloring books by various authors, and I can honestly say I'm DROOLING over this one! It's one of the highest quality coloring books I've ever seen, and it immediately became one of my favorites" --Jessica J."Mr. Hamilton has a distinctive style fairy, with beautiful faces, long pointed ears and lush figures. He places his fairies in scenes which provides me with a fun coloring experience." --iiiireader"Every design is a work of art, worthy of framing and displaying. I love the unique borders and natural backgrounds in each picture that include flowers, foliage and even one with a friendly, honey bee." --Hanford R."I am enchanted by the beautiful artwork on every single one of these pages! Each page has a different fairy in a graceful pose with a unique background. I love that there are such a range of details in each fairy from their hairstyles, to

their wings, right down to the intricate accessories on some of them." --C. Frey --This text refers to an out of print or unavailable edition of this title.

My grown niece and nephew love these and so do I! I bring mine over to my sister's, they bring theirs, and we all sit in the living room after dinner and color! It's better than the tripe that's on tv Sunday nights that's for sure. This book was a particular hit. The pics are detailed but not too busy. Definitely worth the price-and the smiles!

I own all of Jason Hamilton's coloring books and I was happy to pick this one up as well. It is quite different from the others both in subject matter as well as being full body designs. There are 24 standard size designs and as a bonus, Mr. Hamilton includes 14 4 x 6 inch copies of some of the designs as well as 5 full size designs that are zoomed in to highlight certain elements of the original designs. The smaller size are printed two to a page and the design on both small and the zoomed in pages are also featured in the original 24 pages. Mr. Hamilton has a distinctive style fairy, with beautiful faces, long pointed ears and lush figures. He places his fairies in scenes which provides me with a fun coloring experience. While I haven't colored it as yet, I absolutely love the fairy being threatened by the bumblebee. It reminds me of the old movie posters of the fair heroine being threatened by whoever or whatever was the villain of the week. I have been using a mix of alcohol-based markers, colored pencils, and a touch of gel pens in coloring these designs. The designs are detailed with backgrounds. Some parts are somewhat intricate and include smaller details that I used my Verithins to color. This has been my experience while coloring in this book and testing the paper with my coloring medium: 24 full size fairy designs, 14 4 x 6 inch designs, and 5 zoomed in designs for a total of 43 coloring designs (note some are duplicates of other sizes, etc.) Printed on one side of the page Typical CreateSpace paper - 60 lb. weight, thin, white, slightly rough, and non-perforated Glue Bound Designs stop well before the binding area leaving room to cut out pages if you chose to do so Can open fairly flat for coloring if you break the spine to do so. Alcohol and water based markers all bleed through the page though alcohol bleed through more fully and quickly while water based spot through. Gel pens and India ink pens leave colorful shadows at the back of the page. India ink can bleed through if you use repeated layers or try to

blend several colors. Colored pencils work well with this paper. Both oil and wax based could be used with a light or firm hand. I use a light hand and get good pigment color by repeated layers and use of my blending pencils. Layering and blending work well with this paper. My hard lead pencils like Verithins dent or score through to the back of the page. I use and recommend the use of a blotter page of either heavy weight paper or several sheets of regular white paper.

Beautiful drawings for your coloring pleasure! The art in this book is very beautiful. The actual results of course will depend on your coloring skills. You should get many hours of stress-relieving coloring time with this book. I chose to use Crayola colored pencils but you can use whatever you wish. You can even use crayons and markers. If you really want saturated colors, try an artist quality set of colored pencils. Highly recommended.

I own a number of Fairy coloring books this is by far one of the best. Nice clear pictures, pretty pictures. Quality paper with pictures on one side, and the extra pictures that could very easily be turned into greeting cards! Score!!

Love Jason's stuff. His books are realistic and beautifully done. There is quite a bit of detail to color. I think this is either the second or third book I've gotten of his. The first one was his cats and knitting book which is absolutely adorable.

Beautiful fairies!! I like the fact that these fairies have real expressions and are more realistic than in some books. I love the little add on pictures at the end and the paper is not bad quality, either. A great book all of the way around!

MY DAUGHTER HAS CANCER AND THIS COLORING BOOK AS BEEN A GODSEND. IT GIVES HER SOMETHING TO DO TO PASS THE TIME AND SHE LOVES FANTASY. SHE HAS DONE SOME LOVELY PICTURES AND SHE ALWAYS SHOWS OFF THE PICTURES WHEN WE VISIT.

Jason Hamilton does another beautiful job. Fantastic pictures on good quality paper.
