Customer Reviews

The book is a great resource. It is very dense, so young people should take their time reading and be very thoughtful and reflective while reading. It as well is an excellent workbook for teenagers and young adults who are "finding themselves" on their path to employment.

Highly recommend this book for teen's to help evaluate their interests, strengths and weaknesses, and navigate their many options for their future.

I use this in one of my classes. Students get some good information. I only wish there were a companion workbook.

Excellent and up-to-date.

Perfect for teens!

My husbands most favorite book from years and years ago. Now it is time for my nephew and my son to read it.

I love using these books to help teens find their paths in life. Great product! Arrived on time and was in perfect condition.

I'm not sure if my teens appreciate this book at the moment, but they will. It's written for those just starting to move from teen to adulthood. Well-written, just like the original!
