Customer Reviews

If you are heading into the great outdoors look no further. When GPS unit batteries die you will need an old fashioned map. This is the best brand you can get. These are detailed maps that feature every elevation and measurement you want. BEST FEATURE: TEAR RESISTANT. This is not your standard paper map. These do not tear. The material is super durable and will withstand the elements so no need to worry about moisture ruining these. \$10 is nothing. Especially when you are lost in the woods.

Clear and accurate. Waterproof and tear resistant. What more could you want?
