Age Range: 5 and up

Grade Level: 3 and up

## **Customer Reviews**

I bought this for my nephew who likes to draw, but I'm kind of wishing I had one too. The instructions are really good for drawing basic animal shapes, even if you're just doodling or drawing for fun. I like the way each animal has step by step instructions (see my photos). For the price, you really can't go wrong with this book!

What a fun book! My husband, kids and I have had the book a few days and already drew all the animals!

This book is great for young artists. I had a set of these when teaching 2nd grade and the kids loved them.

As I am trying to teach myself to draw animals, I thought this book would be a good place to start.

This book is great! First of all you can't beat the value for the low price! My kids are very interested in drawing so they were both very excited to get this book in the first place! I think it offers a great value for kids learning to draw or that just love to doodle or an adult that's wants to learn to draw simple yet good pictures. It has continued to make my kids happy and keep them entertained and they are ages 12 and 9. It would also make a great, affordable gift to give to someone that is interested in drawing.

This is a great drawing book for my 7 year old son - simple and good for him.

Great book, I gave my 7 year old daughter some tracing paper I had, so she uses that to go from step to step. Eventually, I hope she will try them again without the tracing, but in the beginning she was getting frustrated because they weren't looking like they did in the picture. She's a great little drawer, and I think if they have some trouble, stick with tracing, until they are comfortable enough to do it on their own. They can still follow each step, and see the characters development.

My 6 years old boy loved that. Spent 2 hours today by drawing cute animals.
