Red Mafiya: How The Russian Mob Has Invaded America

Synopsis

In the past decade, from Brighton Beach to Moscow, Toronto to Hong Kong, the Russian mob has become the world's fastest-growing criminal superpower. Trafficking in prostitutes, heroin, and missiles, the mafiya poses an enormous threat to global stability and safety. Today, the mafiya controls over 80 percent of Russia's banks and has siphoned off billions of dollars in Western loans and aid, almost certainly derailing the chance for a stable democracy there. But that is just the beginning, for the mafiya is now in every corner of the United States and has infiltrated some of the banks and brokerage firms that handle your money. And American law enforcement is just waking up to this staggering problem.-- No journalist in the world knows more about the mafiya than Friedman, who has covered the Russian mob for Details, Vanity Fair, and New York.-- At great peril to himself, Friedman interviewed many of the top mobsters, who were stunningly candid about their activities.-- In their depravity, ruthlessness, and brutality, Russian gangsters make the traditional Mafia look like choirboys. Red Mafiya will appeal to anyone interested in the Mob.

Customer Reviews

I wish there were an update to this book-- but sadly, Robert I Friedman has died. A very good start to appreciating the impact of Russian organized crime in the US.

You will never view these cities the same again.

No complaints.

Robert Friedman the author Of "Red Mafiya" reveals who the Russian Mafia are , and how they operate. This is true story of how Russian Mafia has invaded America.Russian Mafia must be stopped just like any other ethnic mafia. Russian Mafia is mostly Jewish, but they betray even Israel for money. The Russian Mafia only works for itself, and no country. They have no loyalty to Russia, USA, or Israel, but only for their mafia organization.Russia , USA, and Israel have been victims of their crimes. Now is the time for all three countries to work together to limit the Russian Mafia.

The book was categorized as used and when I received it it was in almost perfect condition. I would say sometimes brand new books look worse.The book itself is very interesting. Totally recommend

Great read especially if you are into organized crime

The author is an expert and demonstrates his knowledge with details and footnoted sources. Unfortunately I was hoping for more narrative and fewer details.

Fabulous read: ranks with literature like, "Don't Shoot the Messenger." However, you really need to have a high IQ to be able to stay engaged with the data and information presented: everything comes together at the end of each chapter, but really comes together on the very last page of the book!!!
