Customer Reviews

Robert Folzenlogen is a physician, naturalist and author of eight outdoor guides. All of his books are dedicated to the themes of open space protection, historic preservation and wildlife conservation.

This book was a major disappointment. I bought it because the description read that it is for beginners. Not an accurate statement. There very few pictures (in black and white) and there are no descriptions of the birds. I'm curious as to how a beginner birder could recognize the different kinds of birds with scant pictures and no descriptions.
