It works for the class that I'm taking but do make sure to ask about how long the code is for and check the ISBN code for accuracy. I ended up getting the 2 semester code when I thought I had purchased the lifetime edition code. But this was also an mistake on my part since I didn't ask the seller about the details when I needed it for the class that I'm taking in school in a hurry.

I was given a webassign code that initially worked. When the next semester started, I found out the code I had bought and gotten was only valid for 1 semester, and I have to re-buy this product while waiting for a refund. I won't be trusting 3rd party sellers anymore.

These webassign cards work just fine and are the same as what you will find in your campus bookstore. Just make sure to verify the access card prefix or the ISBN code are the same. The access prefix on this one is Cengage-RMY. I got this webassign code for Calculus: Early Transcendentals - 7e Stewart, but it works for many different books. Happy that I got this product for substantially less than on campus.

Worked great with my calculus 1 class and cheaper than the school store

Pretty good product :)

Good for Calculus - 3 classes in North Carolina school. Using it from day one. No issues reported yet. Thanks.

The code worked for me.

Works! Also a better price than the actual website.
