Customer Reviews

I currently use this book in my Therapeutic Relations class and it is very informative in teaching and guiding students on how to properly obtain good relations with their clients. It talks about many of the important aspects of it like what to do when someone asks for a happy ending (or inappropriate sexual touch), when someone cries, when someone puts up walls that halt the therapeutic properties of their massage, etc. Great reference for anyone building a massage business and excellent for LMT students.

required reading for Therapeutic Relationships class. Its an easy read and has some cute personal experience stories. its a worthwhile purchase for those entering the massage field. I think everyone should have at least a little training in boundaries and therapeutic relationships.

LWW managed to have page number on the Kindle edition this time. I guess someone in their company can do that. They need to fix the rest of their Kindle books that don't have page numbers! Page numbers are essential for students regardless of format - any textbook publisher should have page numbering functional in EVERY textbook regardless of the format. I found the book an easy read and I learned valuable things from it. I did find it a bit repetitive, hence my 4 star rating. The case observations and questions at the end of the chapters were the best practice and reviews for tests.

Such a wealth of accurate and useful information!

Interesting & helpful

Really educational! Love it.

seemed educational

Wonderful book for all bodywork therapists - focuses on client (customer) service whilst ensuring the therapist/practitioner remains safe, happy and healthy. Many handy hints and responses to potentially awkward situations. Book also had website details and access code to access videos pertaining to sections in the book. I have read this book, used the website access code and recommend this book to all. A+
