Good product and fast service.

this book is very helpful for preparing to the test, but it has one problem that its disc you must buy separately and their cost 90 \$

What's in the CD-ROM is a software which includes some additional exercises, but not the listening materials. Once you need to do the listening exercises in this book, you have to buy it from elsewhere. What's more I don't appreciate is the software in this CD-ROM runs so slow, sometimes I had to move the software window in order to letting it show the next page, which drove me crazy!! However, it is a good book so far for me to prepare the toefl paper test. The skills are listed

clearly, so you can find out where your problems are quickly. Anyway, It's a good book though.

This book is very helpful, but the CD doesn't provide you with the listening section. You will have to either cut or photograph the conversation from the back and have someone to read it for you. My teacher and her husband recorded the conversation for me, which is very helpful too! The recorded conversations is sold separately, and it is not cheap, so I didn't buy it. Plus, it more difficult to find it than to find two people to record it. Other than the missing conversation, this book does teach you to ace TOEFL's many tips on how you should approach a question. After all, I would recommend this book!

VERY USEFUL GIVE YOU A LOTS OF TIPS FOR THE REAL TEST

It's great that it has 5 practice tests, but very disappointed that the CD included does not have the Listening portion for the practice tests!!

The CD tha is part of the book was missing and the answers to the questions in pencil were not erased.

Good
