Customer Reviews

This adult coloring book has 31 mermaid designs to color. Most pages are highly detailed, some with very detailed backgrounds. A few of the pages do have a bit of gray scale which I normally do find quite annoying but in this book the gray scale is sometimes on items that should be gray or just one some of the very detailed seaweed. I found the pages fun to color and to use my imagination. The book measures 8.5" x 11" so that pages work well on a clipboard if you remove them. The book is not perforated but the pages do come out easily.

The paper seems to be about the weight of a standard adult coloring book but the back of each page is solid black. I was quite surprised to see some duplicates in this book. Sometimes the background changes but other times you simply get two pages that are identical. I have removed one star from my rating because of this. Advance copy received from author.

I'm not impressed with this book.. When I think "Mermaids" I think of beautiful and majestic. The faces on most of the mermaids are not flattering whatsoever. Most of the backgrounds in the pictures are nice. However, the awkward faces on the mermaid do not inspire me to want to color in this book at all.

I really enjoy coloring in this mermaid coloring book. It's a lot of fun and full of whimsy mermaids and sea life. I only wish they didn't color the eyes in black & left more room for me to color the eyes. But that's where the white gelpen comes in handy. If you love the ocean and mermaids you need this book.

My wife loves mermaids, and I got this for her. But there are a few duplicate pictures, and some that are shaded so that she can't really color them. Some are just weird looking too. Wasted pages, I guess. There are enough that she likes to make it worth while.

I loved it. My granddaughter did too. She has it I only got to color one picture :)

I love it.. have never been dissatisfied with anything. I have ordered other coloring books and love each one. I am sure I will order more of the Adult Coloring Books.

Not what we thought/hoped for. Some of the pages were duplicate pages. There were however, some pretty ones. Better than some others we've purchased.

Very pretty, good quality paper
