Customer Reviews

Very very disappointed with this book and will be returning it. Many of the patterns are printed so that they run off the page, or have the opposite problem of not being large enough to fill the page. Many patterns are off-center. Patterns are in many cases not very detailed/ too simple. The cover picture is definitely NOT representative of what is in this book.

It's basically low quality print outs bound together. There were a couple completely blank pages. A couple of the patterns were cut off by the edge of the paper. Pixely images. Not much variety of images.

The pictures are fairly small and not intricate like the cover, as I was expecting.

Super

This is by far the worst purchase I have made on . Some of the designs are cut off and there are 2 completely blank pages. Just horrible. At this point it is kindling for my fireplace.
