Customer Reviews

Exactly what I was looking for. I teach string bass and wanted a collection of reasonably easy to play, tasty pieces to prepare a student to enter and succeed in their school music program. Useful pieces for any introductory bass player. Fun to play as well. Simandle provides the guts. It's too bad there isn't another step by step approach like Simandle's Method but at a slower pace.

Good starters for beginners to practice the older classical pieces and folk songs. I found it a good addition to my library.

Easy-ish, not your root & 5th lines, but a great intro to classical music for a beginner bassist.

Great resource for young players, but I wish they didn't put ALL of the fingerings in all of the songs.

Great Learning tool for a Beginner Bass player. My Son is a Bass player in Middle school and needed some tools to assist in his practice at home.

this is super basic. Single page (roughly 16-30 measures) for each song, very simple all 1st or second fret (1/2 or 1st position). It might be appropriate for elementary school kids with no musical background, who are just barely getting started, but anyone beyond that will find them too simple.
