## Customer Reviews

The content of the books is fine if you like Minecraft stories (at least according to my 8 year old who is reading them). Just be aware that this is only ONE book. Although the description (at least when I bought it) says "10 book set" it is not a "set" but rather 10 stories bound together in one large book. I thought this was going to be like the Minecraft Zombie books that come in a multiple-book set, but it is not like that.I am writing this review just to let other people know that this is one book, not multiple

books. For some kids, looking at a large book is intimidating and they won't even bother, while the smaller books look more manageable. My kid was thrilled to have a "big" book and feels very grown up reading a huge book like this, but my friend's son (who also got it) won't even touch it. Every kid is different, so maybe yours will like it and maybe they won't. But at least now you know for sure what you are getting. If, by some chance, the seller updates their description and it no longer says that it is a 10 book set, or if they make the description more clear, or if maybe you already understand that this book is one large book rather than a 10 book set, please don't leave nasty comments that it is clear. If it is clear to you, then good. But it isn't to everyone and I am just trying to help others who may see it the same way as I do.
