Private Pilot Test Prep 2013: Study & Prepare For Recreational And Private: Airplane, Helicopter, Gyroplane, Glider, Balloon, Airship, Powered ... FAA Knowledge Exams (Test Prep Series)

Synopsis

Pilot license candidates studying for the Private and Recreational Pilot FAA Knowledge Exam will find sample questions for every question in the Federal Aviation Administration exam database along with their answers and explanations, in this guide. Questions from the exam are arranged by subject category, with each section prefaced by text introducing the subject matter and accompanied by specific study material. Each question is followed by the answer, an explanation of the answer, and a Learning Statement Code for further study in FAA materials. Updates are provided to account for FAA test-question changes throughout the publication year via the ASA website or e-mail alerts. Up-to-date basics on aerodynamics, engine operation, flight instruments, performance, radio navigation, and meteorology are among the subjects covered in this study aid.

Book Information

Series: Test Prep series

Paperback: 380 pages

Publisher: Aviation Supplies & Academics, Inc.; Pck Sup edition (July 13, 2012)

Language: English

ISBN-10: 1560279117

ISBN-13: 978-1560279112

Product Dimensions: 10.6 x 8.4 x 0.8 inches

Shipping Weight: 2.2 pounds (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars 21 customer reviews

Best Sellers Rank: #1,375,641 in Books (See Top 100 in Books) #58 in [Books > Engineering & Transportation > Transportation > Aviation > Helicopters](#) #765 in [Books > Engineering & Transportation > Transportation > Aviation > Piloting & Flight Instruction](#) #1966 in [Books > Education & Teaching > Higher & Continuing Education > Test Preparation > Professional > Professional](#)

Customer Reviews

ASA Test Prep Board includes editors Jackie Spanitz, Charles L. Robertson, Cliff Seretan, and Paul Hamilton. Jackie Spanitz is the director of curriculum development at Aviation Supplies & Academics, Inc., and the author of several books, including Guide to the Flight Review. Charles L. Robertson is an associate professor of aerospace at the University of North Dakota. Cliff Seretan holds a Commercial Certificate with an Instrument Rating for Single- and Multi-Engine Land Airplanes and CFI for Airplane Land and Instrument. Paul Hamilton is a sport pilot and light-sport

aircraft expert, a flight instructor, and the owner of Adventure Productions Co.

The text in this book is just okay. If you have zero background in aviation, you won't understand it at all from reading this book, but if you've taken PPL ground school, this book is helpful. It only talks about the things you need to know for your exam, so just see it as a recap of what you've already learned in detail. ASA could've put in more prep questions, but if you want more prep questions, go to either Sporty's or get a Gleim book.

I bought this when I was going for my PPL. Once I registered for my students, I received a free student book in the mail which is equally as good. Maybe this works better for you maybe not. I would try the free one first and if you don't like it, then purchase this one....

A good prep book for Private Pilot skills/knowledge

This book does exactly what it promises. Gives the background information and then asks the questions that will be on the FAA exam. It's like a legal "cheat sheet" that makes you learn the material.

Good, has all the summaries of the chapters and questions to follow it, looks like it'll prepare me well for the exam although I can't quite speak until I pass it.

perfect and great price

The only one

Using this book to study aviation is the same as studying correspondently not easy when just starting off. But if one perseveres there is a lot to learn. Info can be applied to simulation which is a bonus.
