# PROPERTY+CASUALTY INSURANCE LI

## **Synopsis**

\*\*OBJECTIVES OF THIS COURSE : Congratulations on your decision to become a part of the challenging property-casualty insurance industry. As an insurance professional, you will have broad responsibilities to your company, the industry, and the public that you will serve. This course will prepare you to begin these new responsibilities with confidence. You will learn about the principles underlying insurance and how the insurance industry operates. You will become familiar with all of the major categories of property-casualty products, the kinds of situations they are designed to cover, and the characteristics that make them unique. Of course, no one training program will tell you everything you'll ever want to know about insurance. Property-Casualty Concepts will give you the knowledge you need to take your first career steps and prepare you for the challenges and training opportunities that lie ahead. \*\*\*LEARNING OBJECTIVES After completing Unit 1-Principles of Insurance, you will be able to do the following: -Define risk and describe various methods used to manage risk; -Explain the basic purpose of insurance; -Describe how the law of large numbers is used by the insurance industry; -Identify factors that determine whether a risk is insurable, including whether a risk is speculative or pure and whether insurable interest exists; -Explain the difference between a peril and a hazard; -Identify the different types of hazards

It is overwhelming. Half the stuff in this book is not on the test. I can not believe no one has brought this up yet. If your preparing for a license exam. Spend the extra money and take a course. This is not appropriate for people preparing for their pnc exam. It is very knowledgeable but again way too much

I purchased this book for my staff member who is getting licensed. I have used this series over the years and have found that Kaplan's books prepare you well for the test. Keep in mind this does not include the state specific law questions - have to get the supplement for that piece

The most fantastic book, each chapter is more gripping than the last. Not really, but I did ready it and passed the state exam.

Excellent, test prep.....I am using it to prepare for my AZ license.....I have two manuals that I am using, this is one. I will pass my test on the 1st, it is pretty comprehensive, and I will pass my test 1st attempt.

Great book. I read it for 26 days and purchased the online Q-bank. then I pass the exam only use 36 days.good for study, I preffer use the really book rather than online course since I could make the note on the really paper what is good for remember.

Good information who prepare the property and casualty exam. Details and easy to understand. It

helped me a lot and good price.

Not the exact print edition pictured, but still will be very helpful.

It gets the information across.
