Customer Reviews

I am writing this review for those who already have the book, but want to fine tune everything being taught in this book, or for those wanting to get the book but wondering if this is for real. I'm writing now 5 years since I've read this book, happily married to my soulmate, and I just remembered this book, as now wanting to manifest other things in my life and now I want to refer back to this, to relearn the basic principles of law of attraction. When I came across this book, it took me a year to really get the principles this book was teaching. It took me a year to get over my doubt, limiting beliefs and the pain of ever wondering if this is for real. When I finally got what the book was trying

to say, I got to a really good place in my life, feeling really happy and in love with life. I cultivated immense love for myself, warts and all, and just noticed the love that was already around me. In short, I filled my every day with acknowledgements of the love that is already around me, that the once all consuming desire to find the one no longer felt like this big thing I had to have. In saying that, I also didn't entertain thoughts of doubt - just a KNOWING it's already a done deal so I can relax and just enjoy. After 3 months of that, I met my now amazing husband. To this day, I still can't believe he's everything I wrote on my list and more, when prior to this book I've only been attracting duds. So ladies (and gents), don't give up. This really works and if anything, learning how to cultivate joy and love in your life through this book, with or without a partner is already a big gift you can give to yourself, so you have nothing to lose reading this!

This CD-book is read by the author Arielle Ford. I felt a special connection, energy because she speaks from her heart giving you the most complete road map to allow the universe, God, Angels and The Law of Attraction to find your other half. I listened to it while at work. It takes only 4h. I got the book too. But, I bet reading the book will take me at least a month. So, If you would like to listen to your best friend giving you great advise you want to get the CD (also the book to complete). Her voice: tone, speed, inflection makes the listener to feel the sincerity and love Arielle put while writing this book. You will love it.

This book is awesome! Helps you heal yourself so you can attract real love into your life.

Awesome, to read,,,,,

The information is great. After purchasing the CD I bought the paperback. I listened to the CD's in the car, and I'm sorry to say that the author reads the book. It's ok, but actually kind of boring. The book is much better, even though it's the same words. It's much easier to follow what is a person's story and what is Arielle's work. But like I said there is lots of great stuff in there. I recommend the book over the CD's.

Arielle Ford is fantastic. She provides a very personal experience. Just like a good friend giving you great advice on love & relationships. Not only does she provide examples of her own personal experiences but, she also provides other people's experiences that relate back to the Chapter/Topic

she is sharing with you. I refer back to it again & again for a boost of Arielle's inspiration.

I truly didn't know what I was in for when I read this book. There have been many self-help books and articles that I have read over the years about love and romantic relationships but this book is by far the best! It contains information that I have internalized throughout the years and the organization is clear and explicit. Yes we do have to do the work and it's very important that we implement what we've read. Until we take action everything stays the same. It is about forgiving yourself for anything and everything and loving yourself first. Then like a ripple effect we can go out into the world and become a beacon to others. Thank you Arielle for the profound insights and the way that you've delivered these messages. Much gratitude. Deidre Glendon Author

Love her writing.
