Customer Reviews

The printing on this map has such poor resolution, it's difficult to read. This is a "book map", with pieces of the city on different pages. You need to find the right page on the master page, which shows the whole city. However, the image is so small and the resolution is so poor, you cannot make out which page you need. Also, the maps lack many landmarks which are essential when traveling in a city without street addresses. I threw this away on my trip. You'll find much better maps in a bookstore when you visit Nairobi.
