Indulge Your Wanderlust with a Happy Camping Adventure! Welcome to the Happy Campers Coloring Book! I'd like to invite you to come inside and play with doodles, shapes, and patterns. Coloring and patterning are relaxing, meditative activities that encourage self-expression, sending you on a creative adventure. I hope that you'll use each of these pages as a launching pad to spark your creativity and unleash your inner artist. I took my first intercontinental plane ride before I learned to walk, and I've been hooked on travel ever since. From staying with a tribal village family in India to getting married under a tree in Australia, the world offers me such an amazing variety of experiences--cultures to explore, places to see, differences to appreciate. Art is my way of assimilating and interpreting the world around us. And my travels allow me to keep my art and techniques fresh and interesting. Inside are 30 original art activities, inspired by the good life on the

open road. They're perfect for decorating with markers, colored pencils, gel pens, or watercolors. Happy Campers Coloring Book is printed on high-quality, extra-thick paper to eliminate bleed-through. Each page is pre-perforated for easy removal and display. Happy art making! Thaneeya (check out www.art-is-fun.com for my latest drawing and painting tips)

TProfessional artist Thaneeya McArdle is the author of 30 bestselling coloring books from Design Originals. Based in Florida, she works in painting, drawing, and mixed media, with a special focus on vibrantly detailed whimsical art. Thaneeya operates Art-Is-Fun.com, an art instruction website.

I LOVE Thaneeya's coloring books, I have 3. I will undoubtedly be back for more. The ONLY reason I didn't give them all 5 stars is due to the quotes printed on the back side of the paper. I like them, they are interesting; but when you color the picture in, sometimes you can see the quote through the paper. So either put the quotes at the very top or bottom of pages where they don't interfere with the art on the front, or use thicker paper, OR get rid of them entirely. If you are using art markers or gel pens to color, you need to put blank paper behind before starting to catch the bleed.

Love this book! The paper is of good quality and tears out easily. The designs are fun and playful.

What a great coloring book from Thaneeya McArdle. She is really talented on designing whimsical patterns. "Happy Campers" is basically different forms of delightful spaces- Gypsy Wagons, VW Bus, Campers, Hot Air Balloons, etc. Printed on a nice, durable paper that is perforated (although I found that Sharpies do bleed through a bit) ,with wonderful phrases on the back of each picture. You will not go wrong with this one. Great for all skill levels and coloring mediums.

This is my 2nd book from Thaneeya & I absolutely love her style. Happy & upbeat with great quotes on the back of each page. One quote from Edward Sharpe (very cool). These quotes do not interfere with the designs. All pages are perforated if you want to remove the page to color or make copies. Some designs are large & less detailed while others have much more details. This is good for adults & children. Sometimes I want to use markers & that's better for the less intricate pages. Other times I want to take time with pencils. Either way there is something for everyone. The first few pages are instructional with different ways to color. I love these pages & have taken away great ideas. These pages do not take away from the count of the pictures. I used Copic markers for this sample. I color pretty heavy so I made a copy. If you don't want to make copies you will need to put

paper between the pages as all markers & pens will leak through. Pencils are fine. There are so many designs to enjoy. I have quite a few coloring books & usually there are a handful of pages that I have no desire to color or are too intricate for me. This is one of the only books where I love every page. I plan on copying them & coloring them over & over.

This book is so cute! I love it. There is the added bonus of four pages about patterning techniques (in case you want to add to her drawings), color theory and coloring techniques, as well as several full color illustrations to show how the pages in the book might be colored. That said, the drawings in this book are very cute, even better than I expected. While they are not as detailed as some of the current coloring books out there, they are great fun, and include animals, campers, a teepee, houses, trees, flowers and such. Each drawing is printed on one side of the page only, and the back of the page has a quote. The pages are perforated and are not too thick or too thin, and would probably stand up to markers well, but watercolors probably wouldn't be a good idea. Perfect for colored pencil.

A little remedial to be called adult but the pictures are cute. The pages are single sided, which is good so color doesn't bleed.

Gift for my mom. She loves camping and traveling so this themed book was right up her ally. Designs were really unique and detailed. One image per page (not double sided pages) so if your pens leak they won't bleed thru to the next image. Overall, fun for hours for someone of any age.

Fun and cute. Easy but not too easy. Great in the travel trailer
