Airsoft Sniper - A Complete Step-By-Step Training Guide Teaching Real Sniper Skills, Tactics And Secrets + Link To 1000 Survival And Special Forces Military Manuals

Synopsis

Secret Sniper Tactics and Techniques that will Drastically Improve your Airsoft Game! Have you ever wondered how a sniper fires a rifle so accurately and uses camouflage and concealment techniques which allow him almost disappear in any environment and use methods to sneak up on the enemy without them having any idea that he is so close. Imagine the satisfaction of knowing that due to your help and the information you can provide, your whole team could win an airsoft game and minimise the chances of your other team members being shot. You would be one very popular and respected player! You can locate the enemy early on, whilst they are completely unaware of you watching them and use your skills to advise your team commander of possible attack options or eliminate specific targets with a single well aimed shot which will then give your team a distinct advantage over them. Well I am going to combine all the experience and training I possess not only of playing Airsoft games but also of being an ex-military Sniper Marksman and share it all with you in this book. The book itself is laid out to provide an easy to follow step by step guide, as to what you will need to know, as well as the equipment you will require and how to use it effectively. The best way to be successful in what you are wishing to achieve, is to take time to prepare fully and ensure you have not only learned the basic information necessary but also learned from people that have inside information as well as tips and advice they have gained through experience as this may not be openly available anywhere else. You will learn insider secrets and Hot-Tips that will help you tremendously and drastically improve your performance so you too can become one of the most skilled opponents that your enemy fears most on the battlefield - THE SNIPER! If you enjoy this book please provide your feedback and rating in a book review, I would greatly appreciate this and it may help me in further publications, Thank you

Customer Reviews

Maybe this book came out at the wrong time. Maybe there is no demand. I grabbed it to see if I could learn anything new. I was researching a related topic at the time. Honestly, if you want to learn about the sniper's art from a book there are better books available. Yes, the author has professional background but the book just wasn't that good. I couldn't decide if the author was just trying to give an over-view; trying to stay within a certain number of pages; or just didn't want to go into detail. I shouldn't complain since I grabbed it as a daily freebie but when I get a book for free I assume that one reason is so that I might encourage others to buy it. If you're looking for someone to highly recommend this book- I can't. I'm writing this review long after the book was released and as of this moment no one else has submitted a review. I guess it didn't hit the mark for others...

i am a sniper one of the best books

if your seasoned in hunting and ex military it's just a refresher . but really good for the starters. or newbies

Ok for beginners.

This is an all too brief glimpse at "sniping" with an Airsoft firearm. There isn't a lot of information, here and not much in the way of illustration or examples.

very good definitely a must buy, and thats enough to say, thats it, just buy it now, bye bye :)
