Customer Reviews

Spunky early near feminist, but not really. Deadly with a pistol, rifle and with a bunch of spunk. Covers a lot of geography.

A kind of a short interesting book. A couple young kids from England on the run.

Nice story

Good book!

I couldn't put this book down after I started. It's a quick read but well worth the time.. I would like to read more with this young lady.

goodbook

Well deserving of the five stars I gave to the story, as Shorty was at his best. I was impressed with the different characters, as well as the completely different way the story changed throughout the entire novel. I am a true follower of Marshall Thompson, and have read every story I have been able to retrieve throughout my Kindle. As always, I recommend this novel to all of you who enjoy well written novels of our old American west. Try not to miss this story, as it has a complete different storyline of Marshall Thompson's exploits.

Another great action packed adventure that takes U.S. Marshall Shorty Thompson to west coast, San Francisco, California. He's escorting a young english lady and her cousin to a jewelry show hosted by her father and world renowned Tiffany who were also showing gold jewelry set with black pearls, diamond and sapphire brooches that have been in the English family for centuries.As I said lots of action, possible escape to South America with the jewelry. Shorty and the Pinkertons are hot on their trails, with a lot of help from everyday people carrying out there daily tasks.
