A great collection of classic Sax songs. The songs are pretty accurate to the original recordings, with only a slight change here or there, which means this book is best for an intermediate/advanced player. It also comes with a CD with the songs on it. You can put the CD into a computer and

change the tempo and pitch of the songs to help you when practicing which is very helpful. It only includes 8 songs but has both E flat and B flat parts, so whether you play alto or tenor sax, (or both) you're covered. Overall, if the songs interest you, it's worth buying.

This is a wonderful book/CD. It should be a "must have" for every advanced saxophone player. Learning these tunes will put you to the next level.

I bought this for my young daughter. She has enjoyed working from it.

Received as advertised. Fast shipping.

Great collection. Good for study and performance.

In many ways the book is excellent but I really expected to hear the recording artists mentioned actually playing their solos as an inspiration and example.
