Customer Reviews

Nice and informational

I enjoy the quick study for different math. It helps keep my mind sharp.

High quality and delivered on time.

Bought a set for Algebra, Geometry, and Calculus. They are good to have around the home for your kids but there's nothing spectacular about them. And don't hold your breath for the "free downloads" advertised on them...they include highly sought-after titles like "Keys to High School Success," "Flag Day," & "Email Etiquette."

Some good info on this sheet.

Great review for the kids. I keep it on hand in my math class.

My grandson loved this chart. He said it has really helped him with his clsss work.

This is a helpful resource, if your student will use it.
