Synopsis

Experience the glory and magnificence of the Big Sky state through the dramatic color photography of MONTANA. Noted photographer and longtime Montana resident Salvatore Vasapolli turns his lens on one of the most picturesque states in the country. Travel from spectacular Glacier National Park, through the majesty of the Rocky Mountains, to the grandeur of Custer National Forest and the sheer beauty of Yellowstone National Park. Exquisite photos reveal the state's breathtaking natural beauty in smooth-surfaced lakes, glistening glaciers, towering mountains, and twisting rivers. An essay by former United States Congressman Pat Williams evokes the magnificence of Montana with its open landscapes, untamed wilderness, and friendly people.

Great pointers on wonderful scenery and places to visit. Buy this book on Montana first if you are

traveling there!

I love Montana and I own almost every book on Montana. This one in particular is destined to be a classic amongst photographic essays. The compositions are varied in itself and each a fantastic journey of Montana cities and wildernesses. Not a weak one in the whole lot- except the ugly bighorn sheep shedding it's winter coat- the sheep is ugly, but the surroundings are still beautiful. It's a book bound for several editions and Mr. Vasapolli a place along side the photographic greats of all time.

I bought this as a gift for a friend who dreams of moving to Montana. Since I purchased it well before Christmas, I took the time to go through it myself. It is such an impressive piece, I might move to Montana.

This is one of the finest photographic books ever irregardless of it being a state book. The compositions are fantastic and varied. The book is destined to become a classic and Mr. Vasapolli a place amongst the finest photographers ever!

Because I'm the photographer! The has recently won the prestigious SAPPI Gold Medal Award as Best Book in North America! Hope you think so too! Thanks
