I teach my grandchildren each Sunday afternoon. The ages are 8, 9, 10 & 11. They enjoy the lessons & the activities. It is easy to adjust things to fit your class, and the projects are easy and fun for the kids. These books are designed for all ages of children such as you might find in a small church. This is the 3rd book I've used (winter volume). I'll be ordering the spring volume next. Oh, the children love reading the scriptures; I bought each of them a bible written for children that is true to the Holy Bible.. The bible is not required for the children, but you will want one so you can read the full scripture the lesson is based on. I just like having the children's bible to work with the lessons & so do the kids. The one we use: International Children's Bible: Big Red Economy Edition, can be found on [\(see link @ end\)](#). Just put in International Children's Bible and you will find several good bibles to choose from. The one I have is published by Tommy Nelson/Thomas Nelson Publishers, and for ages 7-11. Excellent resource for sunday school and childrens church. They give you activities and stories and lists of what you need to get together for each lesson. There are also crafts and handouts you can photocopy for the kids. I will be purchasing all in this series.

Prompt and courteous service will buy again!!! A+

We congregate in our home and really needed to find some type of program for the multiple ages of the children in our group. We don't have enough people to separate the children by their ages, nor the room for that, so I decided to give this book a try. I really like the simplicity of the lessons and how it can be used with children between the ages 4-12! I ended up ordering volume 1 and 2. I'm so happy with my purchase!

Not good for quick lesson prep

This is the second volume I am using because I liked the first volume so much. They use very innovative ideas to explain concepts to the kids. Lessons are easy to plan and use ordinary props you most likely have around. I will continue to use this curriculum as long as I am teaching. Thank you!

I have ages 1- 16 in my class. This book is perfect for my group, even though it suggested for 3-12, I have adapted it for my group. It is great it pairs younger kids with the older and emphasizes activities and lessons that all the kids seem to relate to and enjoy.

We love this material!! We have children 4yrs-5th grade together and are able to engage everyone. Thank you to Group for once again making our classes great!!
